EDUCATION

Baruch College – Zicklin School of Business **New York, NY**
Master of Science in Quantitative Methods & Modeling Expected May 2028

Baruch College – Macaulay Honors College **New York, NY**
Bachelor of Business Administration August 2022 – May 2026
- Major: Computer Information Systems, Concentration: Data Analytics GPA: 3.99/4.0
- Minors: Mathematics, New York City Studies
- Relevant Coursework: Database Management Systems, Data Warehousing for Analytics, Data Visualization, Big Data Technologies, Data Mining for Analytics, Programming for Analytics

Baruch College – NYC Tech Talent Pipeline **New York, NY**
Tech Talent Pipeline Resident June 2025 – Present
- Completed an intensive 10-week training program focused on Python, SQL, data analysis, and cloud computing

TECHNICAL SKILLS

Languages: Python, SQL
Libraries: Pandas, Matplotlib, NumPy, Scikit-learn
Tools: Tableau, Power BI, Google BigQuery, Google Cloud Platform, Amazon Web Services, GitHub

PROJECTS

Passenger Volume Forecasting | Python (Pandas, Matplotlib, Scikit-learn), Power BI June 2026 – August 2026
- Extracted, transformed, and integrated historical airport operations data from 4+ data sources using Python
- Developed, trained, and evaluated 5 forecasting models to predict airport-wide passenger volume
- Increased model accuracy by 20% and reduced prediction error by 3,000 passengers through feature engineering
- Created Power BI dashboards to visualize model performance and communicate forecasting insights

Rodent & Construction Data Warehouse | Python, SQL, GCP, Tableau August 2025 – December 2025
- Developed a Python ETL pipeline to process 900,000+ records of NYC 311 complaint and construction data
- Designed dimensional models and deployed 2 data marts to a centralized Google BigQuery data warehouse
- Created Tableau KPI dashboards to identify spatial trends between rodent complaints and construction activity

InjecTector Security Scanner | Python (Pandas, Matplotlib), Tableau July 2025 – August 2025
- Built cybersecurity scanning tool for small businesses to identify SQL injection and ransomware vulnerabilities
- Generated Tableau visualizations to report actionable insights and recommendations for small businesses

EXPERIENCE

CUNY Tutor Corps **New York, NY**
Lead Tutor August 2024 – Present
- Conducted ~18 mathematics tutoring sessions per week to support 60+ NYC high school students
- Maintained detailed tutoring logs and student performance records to optimize individualized instruction
- Improved performance, with over 80% of assigned students passing the NYS Mathematics standardized test

Port Authority of New York and New Jersey – John F. Kennedy International Airport **New York, NY**
Data Analyst Intern June 2026 – August 2026
- Analyzed passenger volume trends to support operational planning and staff allocation at JFK's Airport Operations Center during a $19B redevelopment phase
- Collaborated with operations managers and interns to improve model predictions for future deployment
- Presented passenger volume forecasting insights to JFK's General Manager and senior airport leadership

The Jasco Group **New York, NY**
Intern July 2024 – August 2024
- Analyzed financial reports and stock market trends to facilitate strategic business and investment decisions
- Constructed comprehensive business plans incorporating market research and financial analysis
- Coordinated with interns to present 3+ data-driven pitch decks to managers and executive stakeholders
